WORK EXPERIENCE

Traveloka

Software Engineer Intern (Flight Team) | Aug 2025 – Present

- Engineered a secure Credential Management System with AES-GCM encryption, automated rotation snapshots, and granular audit logging on MongoDB to improve security and traceability.
- Developed account-authentication automation services with configurable scrapers, failover backup mechanisms, and real-time sync pipelines to improve reliability and operational continuity.
- Implemented Karate-based API test automation with CI/CD auto-rollback safeguards and built an automated reschedule solution processing thousands of daily changes at 99.9% accuracy.

PT Magna Solusi Indonesia

Full Stack Developer Intern | Jan 2025 – Jun 2025

- Developed full-stack modules using Spring Boot and Angular, delivering reliable features and improving maintainability across business-critical workflows.
- Optimized PostgreSQL queries and built RESTful APIs to support scalable data flow, faster reporting responses, and stronger application reliability.

COMPFEST

Vice Person in Charge of UI/UX | Jan 2023 – Dec 2023

- Led 11 designers across 5 sprints to revamp the design system and deliver dark/light mode implementation while aligning UX outcomes with engineering and automation teams.

EDUCATION

University of Indonesia (UI) — Bachelor of Computer Science, Information Systems

2022 – 2026 (Expected Graduation: Jun 2026 – Aug 2026) | GPA: 3.84/4.00
Relevant Coursework: Data Structures and Algorithms, Enterprise Application Architecture and Programming, Databases, Data Communication Networks, Operating Systems.

INSPIRASI-NTU Summer Program 2025 (LPDP Scholarship Awardee) — NTU & ITS

Focused on sustainable development and technology; applied software engineering to real-world environmental challenges and proposed architecture-driven solution recommendations.

SKILLS

Languages & Frameworks:	Java, Spring Boot, Python, TypeScript, Golang, Vue.js, Angular, React.js, Django
Databases:	PostgreSQL, MongoDB, SQL
Cloud & DevOps:	Google Cloud Platform, BigQuery, Docker, Kubernetes, CI/CD, Auto-rollback, Failover strategies
Testing & Tools:	Karate, Git/GitHub, Linux/Unix, Structured logging, REST API design, AES-GCM security implementation
