EDUCATION

University of Indonesia (UI) — Fasilkom Jakarta, Indonesia
Bachelor of Computer Science, Information Systems — GPA: 3.84/4.00 Aug 2022 – Jun 2026 (Expected)

- **Relevant Coursework:** AI & Data Science, Data Communication Networks, Database Systems, Enterprise Application Architecture, Operating Systems
- **LPDP Scholarship Awardee** — INSPIRASI-NTU Summer Programme 2025 (NTU Singapore & ITS); applied engineering principles to sustainability challenges, producing an architecture proposal for a real-world environmental problem

WORK EXPERIENCE

Software Engineer Intern Traveloka · Jakarta
Backend Engineering, Cloud & Automation Aug 2025 – Apr 2026

- Built automated flight-booking reschedule engine on **Google Cloud Platform**, processing **1,000+ daily transactions** with **99.9% accuracy** and cutting manual intervention by **85%** via configurable scrapers and failover mechanisms
- Designed real-time data-sync services and structured-logging pipelines feeding **BigQuery** analytics dashboards, translating raw cloud event streams into actionable business intelligence
- Engineered secure Credential Management System with AES-GCM encryption, automated rotation, and audit logging; deployed containerised services on **Kubernetes** with CI/CD and auto-rollback logic

Full Stack Developer Intern PT Magna Solusi Indonesia · Jakarta
Enterprise Application Development Jan 2025 – Jun 2025

- Delivered enterprise modules (Spring Boot + Angular) for corporate clients; optimised PostgreSQL through indexing and stored procedures, reducing response time by **35%**
- Designed RESTful APIs for **microservice architecture** handling **10,000+ daily requests** at sub-200 ms latency with Docker/Kubernetes deployment

KEY PROJECTS

Used Car Sales Prediction Machine Learning Analyst
Python · Scikit-learn · Gradient Boosting · Random Forest · K-Means · EDA Apr 2025 – May 2025

- Built classification, regression, and clustering models on imbalanced datasets to surface actionable business patterns; evaluated Gradient Boosting, Random Forest, and Logistic Regression against business KPIs

Enterprise Information System — Event Organizer Lead Engineer & Full Stack Developer
Spring Boot · Vue.js · PostgreSQL · Docker · Kubernetes · JWT Feb 2025 – May 2025

- Led end-to-end design and deployment of a production-ready enterprise platform with JWT auth, CI/CD pipelines, and containerised infrastructure on Docker/Kubernetes

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, Golang
Cloud & Infrastructure: Google Cloud Platform, BigQuery | Docker, Kubernetes | CI/CD pipelines | Learning: AWS, Azure

Frameworks & Databases: Spring Boot, Vue.js, Angular, Django | PostgreSQL, MongoDB, SQL

Security & Integration: AES-GCM encryption, JWT/OAuth | RESTful APIs, microservices

AI & Data: Scikit-learn (classification, regression, clustering), EDA, data preprocessing | GitHub Copilot CLI

LEADERSHIP & ACTIVITIES

Vice Person in Charge of UI/UX COMPFEST — Indonesia's Largest IT Event
Jan 2023 – Dec 2023

- Directed **11 designers** across 5 sprints to redesign compfest.id; primary liaison between design, software engineering, and automation divisions — practising the cross-functional stakeholder communication central to a Presales role

Mentor — Programming Foundations 0 Faculty of Computer Science, University of Indonesia
2024

- Guided first-year students through programming fundamentals, honing the ability to convey complex technical concepts clearly to non-technical audiences
