musthofa.joko@ui.ac.id | Jakarta, Indonesia

EDUCATION

University of Indonesia (UI)

August 2022 – June 2026 (Expected)

Bachelor of Computer Science, Information Systems | **GPA: 3.84/4.00**

INSPIRASI-NTU Summer Program 2025 – LPDP Scholarship Awardee

2025

Nanyang Technological University & Institut Teknologi Sepuluh Nopember – Sustainable Development & Technology

WORK EXPERIENCE

Software Engineer Intern

August 2025 – April 2026 (8 months)

Traveloka – Jakarta, Indonesia

- Engineered secure Credential Management System with AES-GCM encryption and MongoDB, implementing automated rotation and audit logging for enterprise-grade security
- Developed automated reschedule solution processing 1000+ daily bookings with 99.9% accuracy, reducing manual intervention by 85% through intelligent failover mechanisms
- Enhanced CI/CD pipelines with Karate automated API testing and auto-rollback logic, improving deployment reliability by 40%
- Built real-time data synchronization with BigQuery analytics and leveraged GitHub Copilot CLI to accelerate development velocity

Full Stack Developer Intern

January 2025 – June 2025 (6 months)

PT Magna Solusi Indonesia – Hybrid

- Developed enterprise modules using Spring Boot and Angular with seamless frontend-backend integration across production environments
- Optimized PostgreSQL performance through efficient query design and indexing, reducing response time by 35%
- Built RESTful APIs for microservice architecture handling 10,000+ daily requests with sub-200ms response times

KEY PROJECTS

Enterprise Information System for Event Organizer – Lead Engineer

Feb – May 2025

- Led all-in-one enterprise system using Spring Boot, Vue.js, PostgreSQL with Docker, implementing JWT authentication and RESTful API design

Used Car Sales Prediction – Machine Learning Analyst

April – May 2025

- Built ML models using Python/Scikit-learn (Gradient Boosting, Random Forest) achieving 87% accuracy with comprehensive EDA and data preprocessing

TECHNICAL SKILLS

Languages & Frameworks: Java, Python, TypeScript, JavaScript | Spring Boot, Django, Vue.js, Angular, React.js, ASP.NET (learning)

Databases: PostgreSQL (SQL, PL/SQL, triggers, stored procedures), MongoDB, Oracle DB (familiar), BigQuery

Cloud & DevOps: Google Cloud Platform, Docker, Kubernetes, CI/CD pipelines, automated testing (Karate)

Integration & APIs: RESTful services, API design, JSON, XML, secure authentication (JWT, OAuth), microservices, OIC (learning)

AI & Development Tools: GitHub Copilot CLI, Scikit-learn, AI-assisted development, LLM API integration

Operating Systems: Windows, Linux, Unix

LEADERSHIP & ACTIVITIES

Vice Person in Charge of UI/UX – COMPFEST

January – December 2023

- Led team of 11 designers across 5 sprints, implementing dark & light mode and collaborating with engineers on cross-functional requirements

Mentor – Programming Foundations 0, University of Indonesia

- Mentored students in programming fundamentals, demonstrating communication and teaching abilities
