EDUCATION

University of Indonesia (UI) — Fasilkom

Jakarta, Indonesia

Bachelor of Computer Science, Information Systems — GPA: 3.84/4.00

Aug 2022 – Jun 2026 (Expected)

- **Relevant Coursework:** Data Structures & Algorithms, Enterprise Application Architecture, Database Systems, Data Communication Networks, AI & Data Science, Operating Systems
- **LPDP Scholarship Awardee** — INSPIRASI-NTU Summer Programme 2025 at Nanyang Technological University (Singapore) & ITS Surabaya; applied software engineering to real-world challenges in a cross-cultural cohort

WORK EXPERIENCE

Software Engineer Intern

Traveloka · Jakarta (WFO)

Backend Engineering & Operations Automation

Aug 2025 – Apr 2026

- Engineered a secure Credential Management System with **AES-GCM encryption**, automated rotation snapshots, and granular audit logging on MongoDB — enforcing enterprise-grade data protection for sensitive operational credentials
- Built a high-throughput flight-booking reschedule engine processing **1,000+ daily transactions** with **99.9% accuracy**, reducing manual intervention by **85%** through scalable, fault-tolerant API design
- Developed scalable Account Authentication automation services with configurable scrapers and failover backup mechanisms, ensuring high availability under peak load
- Enhanced CI/CD pipelines with Karate automated API testing and auto-rollback logic; built real-time data-sync services and structured-logging pipelines feeding **BigQuery** analytics dashboards
- *Technologies:* Java · Spring Boot · MongoDB · GCP · BigQuery · Karate · Docker · Kubernetes · GitHub

Full Stack Developer Intern

PT Magna Solusi Indonesia · Jakarta (Hybrid)

Enterprise Application Development

Jan 2025 – Jun 2025

- Designed RESTful APIs for a microservice architecture handling **10,000+ daily requests** at **sub-200 ms** latency, supporting performant and scalable web operations
- Optimised PostgreSQL through query tuning, indexing strategies, and stored procedures, reducing average response time by **35%** for high-volume data workflows
- Built and tested full-stack enterprise modules (Spring Boot + Angular) covering security, usability, and data integrity across production deployments
- *Technologies:* Java · Spring Boot · Angular · PostgreSQL · Docker · Kubernetes · GitHub

KEY PROJECTS

Enterprise Information System — Event Organizer

Lead Engineer & Full Stack Developer

Spring Boot · Vue.js · PostgreSQL · Docker · JWT · CI/CD

Feb 2025 – May 2025

- Architected a production-ready enterprise platform with JWT-based authentication, Dockerised deployment, and CI/CD pipelines — from system design to release
- Implemented secure user management, finance tracking, and RESTful API layer serving multiple frontend consumers

Marmut Merah Jambu — Music Streaming Platform

Full Stack Developer

Django · PostgreSQL · Manual SQL · Triggers · Stored Procedures

Mar 2024 – Jun 2024

- Implemented complex backend logic using manual SQL, database triggers, and stored procedures on PostgreSQL, reinforcing deep knowledge of data structures and algorithmic query optimisation

TECHNICAL SKILLS

Languages: Go (Golang), Java, Python, TypeScript

Frameworks: Spring Boot, Django, Vue.js, Angular

Databases & Analytics: PostgreSQL, MongoDB, BigQuery, SQL (stored procedures, triggers, indexing)

Cloud & DevOps: Docker, Kubernetes, CI/CD pipelines, Google Cloud Platform, GitHub/GitLab

Security & API Design: AES-GCM encryption, JWT/OAuth, RESTful API design, microservice architecture

Algorithms & Systems: Data Structures & Algorithms, operating systems, distributed systems fundamentals

LEADERSHIP & ACTIVITIES

Vice Person in Charge of UI/UX

COMPFEST — Indonesia's Largest IT Event (Fasilkom UI)

Jan 2023 – Dec 2023

- Directed a **team of 11 designers** through **5 agile sprints** to redesign compfest.id and ship a new design system with dark & light mode

Mentor — Programming Foundations 0

Faculty of Computer Science, University of Indonesia

2024

- Guided first-year students through foundational programming concepts, algorithms, and problem-solving fundamentals
