EDUCATION

University of Indonesia (UI) — Fasilkom Jakarta, Indonesia
Bachelor of Computer Science, Information Systems — GPA: 3.84/4.00 Aug 2022 – Jun 2026 (Expected)
• **Relevant Coursework:** Enterprise Application Architecture & Programming, Database Systems, Data Structures & Algorithms, Operating Systems, Data Communication Networks, Introduction to AI & Data Science
• **LPDP Scholarship Awardee** — INSPIRASI-NTU Summer Programme 2025 at Nanyang Technological University (Singapore) & ITS Surabaya; applied software engineering principles to sustainable development challenges

WORK EXPERIENCE

Software Engineer Intern Traveloka · Jakarta (WFO)
Backend Engineering & Service Reliability Aug 2025 – Apr 2026
• Engineered a secure Credential Management System using **Java / Spring Boot** with AES-GCM encryption, automated rotation, and granular audit logging on MongoDB — achieving enterprise-grade security compliance
• Built an automated flight-booking reschedule engine processing **1,000+ daily transactions** with **99.9% accuracy**, reducing manual intervention by **85%** through intelligent failover mechanisms
• Developed real-time data-sync services and structured-logging pipelines feeding **BigQuery** analytics dashboards, enabling data-driven operational decisions at scale
• Enhanced CI/CD pipelines with Karate automated API testing and auto-rollback logic, ensuring zero-defect deployments on **Linux** production servers
Full Stack Developer Intern PT Magna Solusi Indonesia · Jakarta (Hybrid)
Enterprise Application Development Jan 2025 – Jun 2025
• Delivered end-to-end enterprise modules using **Spring Boot** and Angular, deployed on **Apache HTTP Server**, improving operational efficiency for corporate clients
• Optimised **PostgreSQL** (RDBMS) performance through query tuning, indexing strategies, and stored procedures — reducing average response time by **35%**
• Designed RESTful APIs for a microservice architecture handling **10,000+ daily requests** at sub-200 ms latency; containerised services with **Docker** and **Kubernetes**

KEY PROJECTS

Enterprise Information System — Event Organizer Lead Engineer & Full Stack Developer
Spring Boot · Vue.js · PostgreSQL · Docker · JWT · RESTful API Feb 2025 – May 2025
• Led end-to-end design and deployment of a production-ready enterprise platform covering finance, freelancer tracking, and user management, built on **Spring Boot** with **PostgreSQL** (RDBMS)
• Implemented JWT-based authentication, CI/CD pipelines, and Dockerised deployment, demonstrating full ownership from architecture to production release

TECHNICAL SKILLS

Languages & Frameworks: Java (primary), Python, TypeScript, Golang | **Spring Boot / Spring MVC**, Django, Vue.js, Angular
Build & App Servers: Maven, Gradle | Apache Tomcat, Apache HTTP Server, Docker, Kubernetes
Databases (RDBMS & NoSQL): PostgreSQL (SQL, stored procedures, triggers, indexing), MongoDB, BigQuery
Operating Systems: Linux / Unix (Red Hat-compatible), Windows — production server environments
Security & Integration: AES-GCM encryption, JWT / OAuth, RESTful APIs, microservice architecture, audit logging
DevOps & Tooling: CI/CD pipelines, automated API testing (Karate), auto-rollback logic, GitHub Copilot CLI

LEADERSHIP & ACTIVITIES

Vice Person in Charge of UI/UX COMFEST — Indonesia's Largest IT Event (Fasilkom UI)
Jan 2023 – Dec 2023
• Directed a **team of 11 designers** through 5 agile sprints to redesign compfest.id's landing page and launch a new design system with dark & light mode; primary liaison between design, engineering, and automation divisions
Mentor — Programming Foundations 0 Faculty of Computer Science, University of Indonesia
2024
• Guided first-year students through foundational programming and problem-solving, fostering a growth mindset in a group learning environment
