EDUCATION

- University of Indonesia (UI) — Fasilkom** Jakarta, Indonesia
Bachelor of Computer Science, Information Systems — GPA: 3.84/4.00 Aug 2022 – Jun 2026 (Expected)
- **Relevant Coursework:** Enterprise Application Architecture, Database Systems, Data Comm. Networks, AI & Data Science, Operating Systems
 - **LPDP Scholarship Awardee** — INSPIRASI-NTU Summer Programme 2025 at Nanyang Technological University (Singapore) & ITS; applied software engineering principles to sustainable development challenges in a cross-cultural cohort

WORK EXPERIENCE

- Software Engineer Intern** Traveloka · Jakarta (WFO)
Backend Engineering & Operations Automation Aug 2025 – Apr 2026
- Engineered a secure Credential Management System with AES-GCM encryption, automated rotation, and granular audit logging on MongoDB — achieving enterprise-grade security compliance for sensitive operational data
 - Built an automated flight-booking reschedule engine processing **1,000+ daily transactions** with **99.9% accuracy**, cutting manual intervention by **85%** and reducing operational error risk
 - Developed real-time data-sync services and structured-logging pipelines feeding **BigQuery** analytics dashboards, enabling data-driven business decisions across operations
 - Enhanced CI/CD pipelines with Karate automated API testing and auto-rollback logic, ensuring zero-defect deployments in a high-throughput production environment
- Full Stack Developer Intern** PT Magna Solusi Indonesia · Jakarta (Hybrid)
Enterprise Application Development Jan 2025 – Jun 2025
- Delivered end-to-end enterprise modules (Spring Boot + Angular) integrated across production, improving operational efficiency for corporate clients
 - Optimised PostgreSQL database through query tuning, indexing strategies, and stored procedures, reducing average response time by **35%** for high-volume data workflows
 - Designed RESTful APIs for a microservice architecture, handling **10,000+ daily requests** at sub-200 ms latency, supporting scalable business operations

KEY PROJECTS

- Enterprise Information System — Event Organizer** Lead Engineer & Full Stack Developer
Spring Boot · Vue.js · PostgreSQL · Docker · JWT Feb 2025 – May 2025
- Led a cross-functional team to design and deploy a production-ready all-in-one enterprise platform covering finance, freelancer tracking, and secure user management
 - Implemented JWT-based authentication, CI/CD pipelines, and Dockerised deployment — demonstrating end-to-end ownership from architecture to production release

LEADERSHIP & ACTIVITIES

- Vice Person in Charge of UI/UX** COMPFEST — Indonesia's Largest IT Event (Fasilkom UI)
Jan 2023 – Dec 2023
- Directed a **team of 11 designers** through 5 agile sprints to redesign compfest.id's landing page and launch a new design system with dark & light mode
 - Acted as primary liaison between design, software engineering, and automation divisions — aligning diverse stakeholders on product direction and delivery timelines
- Mentor — Programming Foundations 0** Faculty of Computer Science, University of Indonesia
2024
- Guided first-year students through foundational programming concepts, fostering problem-solving skills and a growth mindset in a group learning environment

TECHNICAL SKILLS

Languages & Frameworks: Java, Python, TypeScript, Golang | Spring Boot, Vue.js, Angular, Django
Databases & Analytics: PostgreSQL, MongoDB, BigQuery, SQL (stored procedures, triggers, indexing)
Cloud & DevOps: Docker, Kubernetes, CI/CD pipelines, Google Cloud Platform, automated API testing
Security & Integration: AES-GCM encryption, JWT/OAuth, RESTful APIs, microservice architecture
AI & Automation: GitHub Copilot CLI, Scikit-learn, data preprocessing, workflow automation
